

Kings One-Page Rules

2-6 players | 13 hands | lowest score wins

GOAL

- **Play 13 hands.** Each hand has a different wild rank.
- **Go out first to score 0.** Everyone else counts cards left in hand.
- **Lowest total after hand 13 wins.**

SETUP

- Use one standard deck plus two jokers.
- Deal 7 cards to each player. The dealer gets 8 and takes the first turn.
- The dealer does not draw first. The dealer discards to start the discard pile.

TURN ORDER

- Draw 1 card from the deck or take the top discard.
- Play cards if you can: lay down a set/run or add to an existing meld.
- Discard 1 card to end your turn, unless your play used your last card.

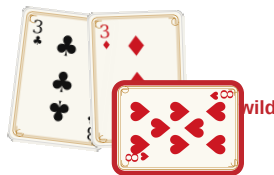

SETS AND RUNS

- **Set:** 3 or 4 cards with the same rank. Suits can be different. A set cannot have more than 4 cards total.
- **Run:** 3 or more cards in order, all the same suit. Aces are low, so A-2-3 works; Q-K-A does not.
- **Meld:** any set or run.

GOING OUT AND SCORING

- Go out when you have no cards left. You do not need a final discard.
- If you can go out, you must go out and the hand ends right away.
- Aces count 1. Cards 2-10 count their number. Jacks, Queens, and Kings count 10. Jokers and the wild rank count 20.

Critical card examples

Set: 2 real 3s + wild

Run: wild stands for 5S
wild stays upright in the gap

Count cards left:

A=1, 2-10=face value,
J/Q/K=10, wilds/jokers=20

WILD CARDS

- Jokers are always wild.
- The wild rank changes by hand: hand 1 Aces, hand 2 Twos, and so on through hand 13 Kings.
- In a set, lay a wild sideways across the bottom. The set must have more real cards than wilds.
- In a run, place the wild upright where the missing card belongs. Wilds cannot sit next to each other.

OPENING AND ADDING

- Before adding to another player's meld, lay down your own set or run first. This is called opening.
- You may open and add to another meld on the same turn.

REPLACE OR COVER A WILD

- If you have the real card a wild represents in a run, you may play it.
- Replace: take the wild into your hand to use later.
- Cover: leave the wild under the real card if you do not want another wild in your hand.
